Economic cooperation between Romania/Germany and the Republic of Moldova:

AHK Romania is officially mandated to develop the economic relations between Germany and the Republic of Moldova within the framework of the German foreign trade and investment promotion and operates therefore since January, 1st 2020 a competence center for the Republic of Moldova at its headquarters in Bucharest. As the largest bilateral economic organization with offices in Bucharest and Cluj, AHK Romania wants to leverage on the business opportunities in the Republic of Moldova and make them accessible to the Romanian-German business community. Moldovan companies are also benefitting by having access to know-how and new business partnerships.

The AHK Romania Competence Centre provides information about the Republic of Moldova as investment location to all interested companies, organizes business events and business trips and maintains close relations with partner organizations in Germany, Romania and the Republic of Moldova. We are convinced that in this way we strengthen the relations between companies from Romania, the Republic of Moldova and Germany in a trilateral sense, thus making a valuable contribution to dynamic and sustainable economic development in the countries involved.

The German-Romanian Business Trip to Chisinau is dedicated to the economic cooperation between Romania/Germany and the Republic of Moldova, with the aim of facilitating contacts and partnerships between different entities. The program of the delegation includes company visits as well as B2B meetings with local partners.

Arguments for Republic of Moldova: advantageous territorial location, free trade agreements, free economic zones and advantageous placement in Doing Business ranking.
